Note from the coach:

The softball team is made up of 6th, 7th & 8th grade girls and we will keep up to 18 on the roster. To try and allow everyone playing time, double headers are scheduled throughout the season. Our main focus will be on developing the basic fundamentals necessary to be successful in a competitive game of softball. These skills will also prepare the athletes for high school competition. The season is very short, so we rely heavily on the girls participation in summer and travel softball team programs.
